

ADVANCES IN ATMOSPHERIC SCIENCES

Vol.15 No.1 1998

CONTENTS

- Simulation of the Asian Monsoon by IAP AGCM Coupled with an Advanced Land Surface Model (IAP94)
..... Zeng Qingcun (曾庆存), Dai Yongjiu (戴永久) and Xue Feng (薛峰) (1)
- A Method for Spaceborne Synthetic Remote Sensing of Atmospheric Aerosol Optical Depth and Vegetation
Reflectance Qiu Jinhuan (邱金桓) (17)
- The Quasi-Decadal Oscillation of Air-Sea System in the Northwestern Pacific Region
..... Li Chongyin (李崇银) (31)
- Influences of Vorticity Source and Momentum Source on Atmospheric Circulation
..... Fang Juan (方娟) and Wu Rongsheng (伍荣生) (41)
- A Land Surface Model (IAP94) for Climate Studies Part II: Implementation and Preliminary Results of
Coupled Model with IAP GCM Dai Yongjiu (戴永久), Xue Feng (薛峰) and Zeng Qingcun (曾庆存) (47)
- A Numerical Simulation of "5.5" Super-Duststorm in Northern China
..... Li Xingsheng (李兴生), Zhou Jianqiang (周建强), Li Zhe et al. (63)
- The Regional Dynamical Model of the Atmospheric Ozonosphere
..... Wang Weiguo (王卫国), Xie Yingqi (谢应齐), Qiu Jinhuan (邱金桓) and Liu Qing (刘青) (74)
- Topographically Forced Three-Wave Quasi-Resonant and Non-Resonant Interactions among Barotropic
Rossby Waves on an Infinite Beta-Plane Luo Dehai (罗德海) (83)
- The Numerical Simulation on the PBL Structure and Its Evolution over Small-Scale Concave Terrain
..... Shi Yong (石勇) and Jiang Weimei (蒋维楣) (99)
- Analysis of the Ability of Infrared Water Vapor Channel for Moisture Remote Sensing in the Lower Atmosphere
..... Zhao Gaoxiang (赵高祥) (107)
- On the Evolution of Finite-amplitude Disturbance to the Barotropic and Baroclinic Quasigeostrophic Flows
..... Mu Mu (穆穆) and Xiang Jie (项杰) (113)
- Atmospheric Refractive Turbulence Effect on Diffraction-Limited Infrared Coherent Lidar
..... Chen Wuhe (陈武喝), Situ Da (司徒达) and Zhong Xubin (钟旭滨) (124)

No.2

- The Westerly Anomalies over the Tropical Pacific and Their Dynamical Effect on the ENSO Cycles
during 1980–1994 *Huang Ronghui* (黄荣辉), *Zang Xiaoyun* (臧晓云), *Zhang Renhe* (张人禾) et al. (135)
- A Diagnostic Study of Moist Potential Vorticity Generation in an Extratropical Cyclone
..... *Zuohao Cao* and *G.W.K. Moore* (152)
- Global Oceanic Climate Anomalies in 1980's
..... *Fu Congbin* (符淙斌) and *Xie Li* (谢力) (167)
- A Numerical Study of Geostrophic Adjustment and Frontogenesis
..... *Majid M. Farahani* and *Wu Rongsheng* (伍荣生) (179)
- Activities of Low-Frequency Waves in the Tropical Atmosphere and ENSO
..... *Li Guilong* (李桂龙) and *Li Chongyin* (李崇银) (193)
- The Sensitivity of Numerical Simulation of the East Asian Monsoon to Different Cumulus Parameterization Schemes
..... *Cheng Anning* (成安宁), *Chen Wen* (陈文) and *Huang Ronghui* (黄荣辉) (204)
- The Water-Bearing Numerical Model and Its Operational Forecasting Experiments Part I: The Water-Bearing
Numerical Model *Xia Daqing* (夏大庆) and *Xu Youping* (徐幼平) (221)
- Frontogenesis, Evolution and the Time Scale of Front Formation
..... *Fang Juan* (方娟) and *Wu Rongsheng* (伍荣生) (233)
- A Diagnostic Study on the Relationship between the Assembling of Low Frequency Waves in the Pacific Ocean and the
Abnormality of the Subtropical High *Zhang Jianwen* (章建文) and *Yu Shihua* (喻世华) (247)
- An Analytical Study on the Urban Boundary Layer
..... *Lin Naishi* (林乃实), *Zhou Zugang* (周祖刚) and *Zhou Liufei* (周六飞) (258)
- Monsoon Circulation Related to ENSO Phase-Locking
..... *Xu Jianjun* (徐建军), *Zhu Qiangen* (朱乾根) and *Zhou Tiehan* (周铁汉) (267)
- Estimation of Cloud Motion Using Cross-Correlation
..... *Li Zhenjun* (李振军) (277)

No.3

- The Development and Initial Tests of an Atmospheric Model Based on a Vertical Coordinate with a Smooth Transition from Terrain Following to Isentropic Coordinates *D. R. Johnson* and *Zhuojian Yuan* (283)
- Numerical Experiment for the Impact of the Ozone Hole over Antarctica on the Global Climate
..... *Chen Yuejuan* (陈月娟), *Zhang Hong* (张 弘) and *Bi Xunqiang* (毕训强) (300)
- Low-Frequency Waves Forced by Large-scale Topography in the Barotropic Model
..... *Fu Zuntao* (付遵涛), *Liu Shikuo* (刘式适) and *Fu Caixia* (付彩霞) (312)
- The Water-Bearing Numerical Model and Its Operational Forecasting Experiments Part II: The Operational Forecasting Experiments *Xu Youping* (徐幼平), *Xia Daqing* (夏大庆) and *Qian Yueying* (钱越英) (321)
- Seasonal and Interannual Variations of Upper Tropospheric Water Vapor Band Brightness Temperature over the Global Monsoon Regions *Qian Weihong* (钱维宏), *Zhu Yafen* (朱亚芬), *Xie An* (谢 安) *et al.* (337)
- On the Forcing of the Radial-vertical Circulation within Cyclones—Part 1: Concepts and Equations
..... *D. R. Johnson* and *Zhuojian Yuan* (346)
- A Two-Dimensional Zonally Averaged Ocean Carbon Cycle Model
..... *Xu Yongfu* (徐永福) and *Wang Mingxing* (王明星) (370)
- Seasonal and Spatial Variation of Radiative Effects of Anthropogenic Sulfate Aerosol
..... *Qian Yun* (钱 云), *Wang Hongqi* (汪宏七), *Fu Congbin* (符淙斌) and *Wang Zifa* (王自发) (380)
- Numerical Studies on Urban Heat Island Associated with Urbanization in Yangtze Delta Region
..... *Tang Youhua* (唐有华) and *Miao Manqian* (苗曼倩) (393)
- The Solitary Waves of the Barotropic Quasi-Geostrophic Model with the Large-scale Orography
..... *Chen Jiong* (陈 炯) and *Liu Shikuo* (刘式适) (404)
- Cloud Feedback on SST Variability in the Western Equatorial Pacific in GOALS / LASG Model
..... *Liu Hui* (刘 辉), *Zhang Xuehong* (张学洪) and *Wu Guoxiong* (吴国雄) (412)
- Relationships between Rainy Days, Mean Daily Intensity and Seasonal Rainfall in Normal, Flood and Drought Years over India *C. V. Singh* (424)

No.4

- Seasonal Prediction Experiments of the Summer Droughts and Floods during the Early 1990's in East Asia with Numerical Models *Huang Ronghui* (黄荣辉), *Li Xu* (李 旭), *Yuan Chongguang* (袁重光) *et al.* (433)
- The Role of Diabatic Heating, Torques and Stabilities in Forcing the Radial-Vertical Circulation within Cyclones Part II: Case Study of Extratropical and Tropical Cyclones *Zhuojian Yuan* (袁卓建) and *Donald R. Johnson* (447)
- A Regional Climate Model Simulation of Summer Monsoon over East Asia: A Case Study of 1991 Flood in Yangtze-Huai River Valley *Wei Helin* (魏和林) and *Wang Wei-Chyung* (王维强) (489)
- Decadal Variation of Summer Rainfall in the Yangtze-Huaihe River Valley and Its Relationship to Atmospheric Circulation Anomalies over East Asia and Western North Pacific ... *Wu Renguang* (吴仁广) and *Chen Lieting* (陈烈庭) (510)
- Study on Conventional Atmospheric Dispersion Models in China, America and Canada *Wang Tijian* (王体健), *Li Zongkai* (李宗恺) and *Sun Zhaobo* (孙照渤) (523)
- Modification of Sea-salt Aerosols over the Coastal Area in China *Li Fang* (李 放), *Duan Minzheng* (段民征), *Lu Daren* (吕达仁) *et al.* (531)
- Theoretical Relationship between SSA and MESA with Both Application *Ding Yuguo* (丁裕国) and *Jiang Zhihong* (江志红) (541)
- Retrieval Single-Doppler Radar Wind with Variational Assimilation Method—Part I: Objective Selection of Functional Weighting Factors *Wei Ming* (魏 鸣), *Dang Renqing* (党人庆), *Ge Wenzhong* (葛文忠) *et al.* (553)
- Comparison of Manual and Automatic Methods for Measurement of Methane Emission from Rice Paddy Fields *Zheng Xunhua* (郑循华), *Wang Mingxing* (王明星), *Wang Yuesi* (王跃思) *et al.* (569)
- A High-Order Compact Scheme with Square-Conservativity *Ji Zhongzhen* (季仲贞) and *Li Jing* (李 京) (580)
